Patient
 Label

Has your child ever been diagnosed with any of the following conditions?

- Cleft lip
- Hydrocephaly
- Encephalitis
- Contagious Diseases (Please include common childhood diseases) _____
- Asthma
- Other Respiratory problems: If yes, specify: _____
- Cerebrovascular accident (Stroke)
- Spina Bifida
- Cardiac (heart) problems: Specify: _____
- Pacemaker
- Failure to Thrive
- Cancer: Specify: _____
- Diabetes
- Genetic Syndrome: If yes, specify: _____
- Orthopedic injuries (ex: broken bones) Specify: _____
- Joint Condition/Arthritis
- Pregnant
- Other _____
- Cleft Palate
- Microcephaly
- Meningitis
- Sinus/Allergies: If yes, specify: _____
- Cerebral Palsy: If yes, Type: _____
- Autism/PDD _____
- Defibrillator
- Gastrointestinal problems (ex: Reflux) Specify: _____
- Blood disorder _____
- Torticollis
- Skin Condition _____
- Attention Deficit

Has your child ever experienced seizures? Yes No If yes, when was the last time? _____

Is your child on medication for the seizures? Yes No

Has your child ever had special testing done for the seizures? Yes No

If yes, what testing was done? _____

What were the results of the testing? _____

Developmental History

- At what age did your child: _____
- Sit with assistance? _____
- Crawl? _____
- Cruise furniture? _____
- Hold items with two hands? _____
- Reach to get what they want? _____
- Babble? (ex. Baba, awaba, etc.) _____
- Say first word? _____
- Is your child toilet trained? Yes No If yes, at what age: _____
- Please list your child's favorite toys _____
- First roll over? _____
- Sit alone? _____
- Pull to Stand? _____
- Walk? _____
- Pick things up? _____
- Use of variety of sounds in play? _____
- Combine words? _____

Feeding/Swallowing

- Is/was your child: Breast fed Bottle fed Both For how long? _____
- What kind of diet is your child currently on? _____
- Does your child feed him/herself? Yes No Eat with assistance Yes No
- Does your child have any suspected swallowing problems? Yes No
- Does your child have any known swallowing problems? Yes No
- Is he/she fed by alternative feeding, methods? (G-tube, Ng tube) Yes No
- If yes, please specify _____
- Has your child experienced recent weight gain? Yes No OR weight loss? Yes No
- Does your child require skilled nursing care in the home? Yes No

Patient Label

Does your child have any vision problems? () Yes () No

If yes, please clarify: _____

Hearing History

Do you have any concerns about your child's hearing? () Yes () No

If yes, please explain: _____

Is there a family history of hearing loss? () Yes () No

If yes, please explain: _____

Does your child have a history of acute or chronic otitis media (ear infections)? () Yes () No

If yes, has your child ever had "tubes"? () Yes () No

If yes, how old was your child when they were placed? _____

Has your child's hearing been screened or tested before? () Yes () No

If yes, when was the testing completed and what were the results? _____

If treatment or follow-up was recommended, please describe: _____

Communication Needs

Do you or your child have any special communication needs?

Child: _____

Caregiver: _____

What is your preferred language?

Child: _____ Caregiver: _____

Learning Profile

Do you or your child have any barriers to learning? (ex. Visual, hearing, language, or mental impairments?)

Child: _____

Caregiver: _____

How do you feel your child learns best? () visualization () verbal instruction () demonstration

How does caregiver learn best? () visualization () verbal instruction () demonstration

PEDIATRIC AUDIOLOGY POLICIES

Supervision: An adult must accompany all children to their appointments. **If a child is under 14 years old or has developmental delays, an adult must remain on the premises during the child’s appointment.** Our staff may ask a parent to stay for other reasons at their discretion.

A **parent or legal guardian** must be present to sign consent for testing/treatment on the patient’s initial visit. We cannot provide testing or treatment without legal consent.

Siblings: While siblings may attend sessions, it is not recommended. If siblings do attend sessions, they must either be able to sit quietly during testing or wait in the reception area *with an adult*. If the audiologist’s attention cannot remain focused on the child being tested or quiet test conditions cannot be maintained, testing may need to be rescheduled. Again, please remember that all children must be supervised by an adult at all times.

Tardiness: Every effort is made to see patients in a timely manner. You can help. Please arrive early to complete the registration process so testing can begin at your child’s appointment time. New patients that do not arrive early to complete their intake paperwork or bring completed paperwork with them may have to be rescheduled. Returning patients arriving more than 10 minutes after their appointment time may have to be rescheduled.

Cancellations: We understand that, from time to time, there will be reasons you must cancel your appointments (illness, car trouble, out of town, etc.). We ask that you call our office as soon as possible so we may accommodate other patients. **A call the day of your appointment will be counted as a “no show”, but no letter will be sent to your child’s physician.**

No Shows: Should you fail to show for a scheduled appointment, it will be documented in your child’s chart and a letter may be sent to your child’s physician.

Scheduling Holds: “No shows” and excessive tardiness or cancellations can negatively impact not only your child’s care, but also the care of other children. Therefore, patients will be placed on a scheduling hold for 6 months if they (a) fail to show with no call to the clinic or no contact with the clinic for 2 consecutive appointments or (b) have a total of 3 “no shows,” late arrivals, or cancellations in any combination over a 6-month period. A letter will be sent to your child’s physician, notifying them of this action. Additional appointments will not be scheduled for your child until the scheduling hold has expired. This policy is necessary to best serve all patients in need of audiologic care.

Inclement weather: Pediatric Audiology follows Huntsville City Schools closings and delayed openings for inclement weather. If they close or open late due to weather, we will do the same. This is for **WEATHER ONLY**.

Insurance Coverage: Please call your insurance carrier. Some insurance carriers require prior authorization and/or pre-admission certification for audiology testing and procedures. If this is required and not done, they can refuse to pay for services. Some insurance carriers may have a limited amount of, or no, coverage for audiology procedures or hearing devices. You will be responsible for payment for services not covered by your insurance.

I have read and understand the above policies.
